Gin

Gin was first made in the Netherlands by a Dutch Professor, Fransiscus De La Boe, who was trying to create a wonder elixir and life giving drink, some say he succeeded!! All we know is it made it's way to the United Kingdom by way of the British Army, who were found to be happier going into battle after a shot of "Dutch Courage!" It is made from blending alcohol with Juniper Berries and each producer uses their own secret ingredients

Bourbon & Whiskies

Bourbon is a highly fertile area of Kentucky, named after the Bourbon Family, an old French Royal Bloodline, first distilled in 1789 by Elijah Craig, Bourbon is a non generic term and cannot be produced anywhere else in the world.

Rye or American Whiskey has a minimum of 51% rye added to its mash and is usually filtered through charcoal, produced all over Canada and the South East USA

There are also Irish, Welsh, English, Japanese and even some Spirits in Scotland, that fall under Whiskey rather than Whisky

A new and exciting cocktail created exclusively for the Castle.. A mix of Jack Daniels Honey, Elderflower Cordial, Triple Sec, shaken and poured over ice with a splash of cranberry for colour!

The Malts

Defined as the product of one distillery, unblended due to the fact that most distillers believe their product too great to blend with others. Most malts are aged between 8 and 15 years although some are aged upto 50 years. Please do not be fooled by the common misconception, Malts do not continue to age and improve once bottled!

Our Selection.. and it is acceptable to have a splash of water or cube of ice, in fact it is encouraged as this releases a lot of the natural oils and flavours
